Root Grafts Made to Order.

The Secret of success among many buyers of root grafts, is that they realize the importance of getting them of a firm who has an established reputation for furnishing grafts that will grow, as well as be true to name, without this favorable start you are handicapped. If a long experience, maturing yearly into an increased business until its volume is second to none, is worthy of note, we claim your attention. Get our prices on our regular Commercial grades or any special graft that might suit your wants or fancy.

FRUIT TREE STOCKS.

We are still able to offer a good strong grade of No. 1 and No. 2 apple seedlings at reasonable prices. We have also to offer a full line of imported fruit tree stocks.

APPLE TREES.

Our Prices are Reasonable, Varieties Consistent, Grade Excellent, Age two years.

IMPORTANT.—Do you appreciate the importance of the location of St. Joseph, Mo., as a shipping point? Not only on account of its central location but more especially because of its being a Missouri river terminal making a great saving in tariff rates over all inland towns far and near, in whatever direction and whether with or without competing lines.

THE PRACTICAL NURSERYMAN.

A TRADE JOURNAL.

Vol. 4.

HUNTSVILLE, ALA., JULY, 1896.

No. 7

THE PRACTICAL NURSERYMAN.

PUBLICATION OFFICE:

HUNTSVILLE.

ALABAMA.

W. F. HEIKES, Editor and Manager.

Issued Monthly. Sent only to those in the trade. We do not solicit subscriptions. If you value THE PRACTICAL NURSERYMAN, please accept it with our compliments. Our circulation covers a list of 1,500 selected names of customers and correspondents, made up through many years of active wholesale business. Every name represents a buyer of nursery stock, and this list contains only the names of those who buy at wholesale.

Advertisements 10c. a line agate; \$20.00 a page; one-half page \$10.00; one-fourth page \$5.00. Advertisements must be handed in one week before the day of publication. Advertisements for less than \$5.00 will not be accepted. Discounts: 3 times 5 per cent.; 6 times 10 per cent.; 12 times 25 per cent.

The circulation of this Journal will be confined strictly to Nurserymen, Florists and Seedsmen, and only invited advertisements of articles pertaining specially to these trades will be inserted.

A New Cherry.

Mr. S. J. Baldwin, Seneca, Kan., sent us specimens of a new Morello Cherry on the 6th of June, which he has named Kansas Queen. We believe it belongs to the Wragg, English Morello or Suda type, and judging from his description, which we give below, it is probably one of the best, if not the best, of this class of cherries. Mr. Baldwin is a large and successful grower of the cherry fruit for market, and his orchard contains all the leading varieties. After the Kansas Queen he reports the English Morello as his most profitable sort:

THE KANSAS QUEEN.—A new cherry of the Morello type, first fruited June, 1891, on my Fruit Farm, at Seneca, Kansas, and the original tree has borne full crops for five years and possesses the following remarkable qualities, which make it the most valuable early cherry now known:

The tree is an upright grower, more inclined to be round than otherwise, a very rank, vigorous grower; leaves rather broad; bloom pure white, which turns to a pink color, similar to the hydrangea; fruit very large, almost perfectly round, very dark, yet almost transparent; flavor slightly subacid, yet the sweetest and rich-

est of any of the Morello type; stems rather large, of medium length, more inclined to grow in pairs than clusters. It is remarkable for earliness, vigor, hardness, quality and productiveness, and out of 800 cherry trees I have in bearing it is the most thrifty and beautiful tree in the lot, and yet has had only the same care and attention as the others. It is a tree to command attention, and is so distinct as to attract comments from many upon seeing it without knowing its superior merits. The original tree was planted eight years ago and has fruited now five years, and the tree is at least one-third larger than any Early Richmond tree of same age.

Improved Russian Mulberries.

Messrs. W. Cutter & Son, Junction City, Kansas, write us under date of June 8th: "Our Rutledge Mulberry, of which we sent you cions a year ago last winter, are now loaded with fruit ripe and green, and have been ripening since May 14th. They will continue to bear for the next three months. The fruit is large and good."

The Koonce Pear.

We were favored with specimens of the Koonce Pear on the 23d of June, grown in Southern Illinois by Messrs. George Gould & Son. The fruit is of medium size, yellow with very handsome crimson cheek, making a showy market fruit. The flavor is good enough to sell, it does not rot at the core, and taking all its good qualities into consideration we think it next to point of profit as a market pear to the Kieffer.

Again we are glad to say that Rosa Wichuraiana has passed the Winter in safety. One of our plants was set within a foot or so of our little lake, and less than a foot above it. Not a bud has been harmed.

For once the nurserymen and florists did not overpraise a novelty, the novelty being the Crimson Rambler. Of six plants which we received last Spring, not one was harmed during the Winter. The shoots are wonderfully vigorous and stout, and the plants are now in bud, to bloom a week later. The Crimson Rambler has come to stay—there can be no doubt about it.—Rural New Yorker.

THE HUNTSVILLE WHOLESALE NURSERIES PRICE LIST.

THE HUNTSVILLE WHOLESALE NURSERIES

We resume quotations this month, and make very low figures to induce early orders. Will give special prices in car load lots for Fall shipment. We expect prices to be advanced later in season. Correspondents from all parts of the country report better sales through agents than last year up to this date, and all merchantable nursery stock is likely to be called for to supply the demand between now and next Spring. Early buyers will get the bargains this year.

Notice the offerings of the Heikes-Biloxi Nurseries Company on page 107. The prices are low and the quality of the stock as nice as can be grown.

Your attention is called to our prices on Wickson and Red June Plums; Early Harvest, Koonce, Lincoln Coreless, Golden Russet, Canner's Hybrid Pears; Triumph and Greensboro Peaches.

Orders for buds can be made upon us with confidence. We take especial pains to keep all our sorts pure, renewing frequently from bearing trees and "mother blocks." Special prices will be given on orders of 5,000 or more of leading varieties.

Our stock of Kieffers is one-half less than the crop of last year; but we are making low prices on them. We can supply them on French roots or own roots, as may be preferred.

We will not have more than one-half as many cherries of the larger sizes to sell this year as last. We think prices will be higher on them as the Season advances.

Orders for Triumph Peaches are coming in from every direction. The Greensboro is a fit companion for it, where a white peach is wanted. The Sneed is a week or ten days earlier than these varieties, and leads all for extreme earliness.

The Heikes-Biloxi Nurseries offer a large stock of Mulberries two years and one year of very fine quality.

We can supply beautiful medium and small-sized peach trees this year. The lands upon which our peach trees are grown this year produces a light, well-matured tree, with fine roots. These trees

will answer well the purpose of "June Buds," and are very much better to transplant, as they will be well matured to the terminal bud, which June Buds are often tender at the tips. The little trees we offer should not be confounded with the little culls left after the larger trees have been dug and offered so cheaply by other nurseries. Our peach trees have been grown with especial reference to the Southern trade, where small sizes are mostly wanted. The Yellows and Rosette are unknown in this locality, and we have been careful not to bring in any buds from affected localities.

The Canner's Japan is not a good pear to eat; but it is so prolific and so beautiful on the tree and makes such good preserves that everybody who has a tree is glad of it. The tree is very hardy and bears in unfavorable seasons when other sorts do not.

UNSOLICITED COMMENDATIONS.

KANSAS, April 13th, 1896.—"Cherry trees have been received in good condition."

IOWA, April 13th, 1896.—"The trees arrived on the 10th in good order."

IOWA, April 12, 1896.—"The two boxes of cherry trees arrived on the 10th in good order."

MISSOURI, April 9th, 1896.—"The trees are giving good satisfaction."

MINNESOTA, April 13th, 1896.—"The roses are in fine shape with nice roots."

CONNECTICUT, April 13th, 1896.—"Boxes came latter part of last week; are a good lot of trees."

WISCONSIN, April 20th, 1896.—"Your stock came a few days ago. Was in good condition and dormant."

WISCONSIN, April 17th, 1896.—"All stock in the four boxes opened up. Very fine and just what we expected from you."

OHIO, April 20th, 1896.—"I want to say to you right now that I never had a finer lot of trees, and my customers were never better pleased."

NEW JERSEY, April 17th, 1896.—"Opened one box of Kieffer this morning. Never saw nicer trees. I have had eleven years' experience in selling. I never saw finer roots on such large trees. Everybody well pleased."

ADDRESS ALL CORRESPONDENCE TO

W. F. HEIKES, MANAGER.

HUNTSVILLE, ALABAMA.

Fall of 1896 and Spring of 1897.

Tract of 1,000 Acres. Over 800 Acres closely Planted in Nursery Stock. Nothing over Two Years Old.

The publication of this list abrogates previous quotations.

Except where prices are agreed upon, these quotations are subject to change without notice.

See Terms and Conditions governing these quotations on another page.

We print quotations this month and have made them very low, a little under the market price, to induce early orders. The indications from all parts of the country point to better business for nurserymen the coming year, and we predict higher wholesale prices as the season progresses.

KIEFFER--Two Years.

Grafted on French Seedlings, Japan Seedlings, or Own Roots, as May be Preferred.

These were very strong, handsome, one year trees, mostly 4 to 5 feet high. They were grown from root-grafts, transplanted at one year old, cut back to the ground and one shoot allowed to grow. They have the appearance of two year buds, and are very fine roots and tops.

NO. 2 PLANTS OF ABOVE VARIETIES FOR TRANSPLANTING AT ONE-HALF THE PRICE OF NO. 1.

Grown from cuttings. Price of boxes or bales to be added. Delivered at depot at Biloxi. Orders sent in by Northern customers for Spring delivery, we will pay freight to St. Louis, and hold in cold storage there until wanted. The No. 1 plants will have three or more branches and will be cut back to 30 or 36 inches. The roots are very fine.

THE HUNTSVILLE WHOLESALE NURSERIES PRICE LIST.

Terms and Conditions Governing Quotations in the Price List of the Huntsville Wholesale Nurseries.

RATES.—As we send this list to the trade only, we make the difference in prices between the 10, 100 and 1000 rates very slight—simply sufficient, as a rule, to cover the difference in the expense of handling in the smaller numbers. We uniformly tie in bunches of 10, when consistent with the order, and we suggest to our customers to make their orders for varieties in multiples of 10 as far as practicable. Orders for 50 and not over 300 trees, if for not less than 10 of a variety, will be charged at the rate per hundred. Orders requiring 300 trees or more, and not less than 10 of a variety, will be filled at the lowest quoted prices. Orders for less than 10 trees of one variety, will be charged at the rate per ten.

SEASON.—Our packing and shipping season begins by the 20th of September, and continues until about the first of March.

We have great advantages to offer here in early shipments for the North in Spring. We do not accept orders for trees we do not grow, as we never buy trees to sell again. You can depend upon us for fresh dug trees. Each order is taken up separately, and not until it is wanted for shipment.

SHIPPING DIRECTIONS.—We respectfully beg our patrons to furnish us with explicit *directions as to shipping*, and the mode of conveyance by which they desire trees forwarded. When no particular directions are given, we forward according to the best of our judgment. *But in no case do we assume any responsibility as to safe delivery and condition of Trees and Plants after a proper shipment by us.*

RELEASE.—When prepayment of freight is not required, we will Release and Guarantee, and take forwarder's receipt and mail to consignee. It is left to the option of the shipper of trees over some railroads, whether he will release them or not under the clause "Value less than \$5.00 per 100 lbs." If released under this clause, the freight is less on roads governed by this classification, and we will assume it to be proper to make this release, without reference to the value of the trees, unless instructed to the contrary. This clause does not apply upon roads under some of the district classifications, and because of this confusion we will not be held responsible for any oversight to release, unless instructed by our customers. Claims for delay or loss must be made to the forwarders.

PACKAGES.—The cost of package must be added to the prices quoted in this list, as follows: Boxes 30 inches square, from 7½ to 9 feet long, as the trees may require, each \$2.50; boxes 24 inches, \$2.00; boxes 18 inches, \$1.50; bales from 25c. to 75c. each.

PACKING.—Goods will be packed in moss, and especial care taken to insure their arrival in the best condition.

ASSORTMENTS.—We do not require customers to take an assortment they do not wish, but will sell one variety alone if desired. If any substitution can be allowed, either in grade or variety, it should be so stated when making the order. As a rule we do not substitute without permission.

CAUTION.—We accept all orders upon the condition that they shall be void, should any injury befall the trees from frost, hail, storm, fire, or other causes over which we have no control.

TERMS.—Cash. When desired, we will allow 30 to 60 days from date of shipment, to responsible.

prompt-paying customers. Parties with whom we have had no business transactions, will save time by sending reference, with order. We wish it expressly understood that payment is expected from the first collections made, and the time named is only intended as so many days of grace in which to make returns. To northern customers, who wish to lay in stock for Spring trade, we will ship late in Fall or early in Spring, and allow time for payment till May 15th. If shipment is required in the Fall for Spring use, a note is to be given upon receipt of the trees. We do not allow any discount for cash, but we make our prices low to command cash, or prompt returns. In orders when the time is not mentioned, 30 days is to be understood. Interest at the rate of 8 per cent per annum must be paid on over due accounts. Should prices be changed, either higher or lower, during the season, the prices ruling at the time the order is made, are expected to stand.

FORMS OF PAYMENT.—All bills are payable at the office of the seller, and remittances should be made by drafts on New York, Chicago or St. Louis, or by money orders on some Express Company, or by postal orders. We will, however, accept checks from those of our customers who may be located at places having no banking, express or postal facilities, provided they make them in every case payable "with exchange", or add ¼ of one cent, to the amount of the bill for the cost of collection.

GRADES.—We grade very carefully, in some cases by caliper, in others by height. When graded by both caliper and height, the caliper must govern, as the height then named is only to be considered approximately. When graded by height or caliper, we include the lower number and exclude the higher. Instance: in a grade of 4 to 5 feet trees, the 4 feet trees are included, but not the 5 feet trees. If 5 feet trees are wanted, the 5 to 6 feet grade must be ordered.

GUARANTEE OF GENUINENESS.—While we exercise the greatest diligence and care to have all our Trees, etc., true to label, and hold ourselves in readiness, on proper proof, to replace all trees, etc., that may prove untrue to label, free of charge, or refund the amount paid, it is mutually understood and agreed to, between the purchaser and ourselves, that our guarantee of genuineness shall in no case make us liable for any sum greater than that originally received for said trees, etc., that shall prove untrue.

ACCEPTANCE.—Notice should be sent us by telegraph, at our expense, if there is any cause of complaint, or should the trees be refused, stating reasons. Claims for deduction, from whatever cause, will receive consideration only when made promptly upon the receipt of the trees. If trees show any signs of shrivelling upon arrival, they can usually be restored by being thoroughly watered and buried entirely under the ground for two or three days. Should there be any frost in the trees upon arrival, they should not be removed from the box until the frost is all out. The box should be placed in the cellar or protected in some other way. The presence of frost in the boxes is not to be considered an evidence of bad condition, as we pack to secure the trees against damage, if the frost is allowed to come out in the natural way. Goods will be considered accepted if removed from the boxes in which they are packed, without notice of complaint to us, and without our orders for their disposition.
